

FREQUENTLY ASKED QUESTIONS

What is Single Stream Recycling?

Single stream recycling is a system in which households receive one 95 gallon recycle cart to place all approved household recyclables. These carts provide ample capacity and an easy closing lid.

Do we need to bag the recyclables before placing in the cart?

No, please DO NOT bag or tie your recyclables before depositing them into the cart. (with the exception of shredded paper, please place in clear bag and tie).

How should I prepare my recyclables for collection?

Flatten all cardboard boxes. Wash and rinse all food and beverage containers. Remove all lids and caps from containers.

Can we place organic material or other material in the carts?

No other materials can be accepted until such time that local recycling processors can efficiently process other recyclable materials. Materials not accepted in our program will not be collected and your cart may not be emptied until the offending materials are removed.

What should we do if we have more recyclables that can fit in the cart?

Extra recyclables should be kept for your next scheduled pickup or taken to the public recycle depot.

My normal pick up falls on a statutory holiday, do I still put out my cart?

Goliath Disposal collects on all statutory holidays except New Years Day and Christmas Day. Please check your collection calendar for your scheduled pick up days including holidays.
